Job Description

Company Information

Take charge of your career and grow in new directions by exploring opportunities within a growing Life Sciences Company...

Cambrex Bio Science Baltimore, a Cambrex Corporation, is a rapidly growing biotech company, dedicated to providing superior contract biopharmaceutical manufacturing services in our state-of-the-art facilities (Baltimore, MD and Hopkinton, MA). Our core competency is the production and purification of a variety of therapeutic and diagnostic products for clients in clinical trials and for commercial production. Cambrex Corporation (NYSE: CBM), is a \$522 million innovative, global service leader supplying products and services to the life sciences industry. Headquartered in East Rutherford, NJ, Cambrex employs over 1,900 people located throughout the U.S., Europe, and Asia

Cambrex Bio Science, located in Baltimore, MD is seeking a EHS Program Coordinator who shares the values and principles that characterize who we are - and how we work. It's time to join our world-class team, if the following attributes reflect your desire to contribute:

Job Description:

The EHS Program Coordinator is responsible for the implementation and management of environmental, health and safety programs at Cambrex Bio Science Baltimore. This position will also be responsible for the ongoing coordination of EHS programs with client projects.

Job Responsibilities:

Responsibilities include, but are not limited to:

- Oversee department management/implementation of EHS programs and provide assistance with issues that arise
- Audit the execution of EHS programs/training and recommend corrective actions for deficiencies found.
- Continuously redevelop existing programs to ensure usability, efficiency, effectiveness, and accountability
- Support the Safety Committee mission of continuously improving the safety management system
- Develop client specific safety plans and training that include adequate hazard control methods as well as equipment for personal protection, industrial hygiene, safety, biosafety and fire prevention.
- Audit client processes and documentation to ensure conformance to safety plans.
- Investigate incidents and report corrective actions.
- Respond to employee's safety and health suggestions.

Job Qualifications:

- Bachelor's degree in Safety Sciences or related field and 1-2 years college level chemistry and biology or combined education and field experience equal to 7 years.
- 3-5 years environmental health and safety experience.
- 2-3 years of experience in biopharmaceutical and/or FDA regulated industry
- Experience with interpretation and application of federal, state and local regulations.
- Familiar with OSHA, EPA, FDA, COMAR, CDC/NIH, and NRC a plus
- Ability to effectively communicate by writing policy documents, through presentations, using audiovisual technologies and the Internet

Interested candidates should submit a resume and cover letter with salary requirements to Attn: Req #HS0501 by applying below or at www.cambrex.com or Fax 201-221-8353

Cambrex Bio Science offers a competitive salary and a comprehensive benefits package including medical (PPO), dental, vision, disability, life insurance and AD&D, in addition to tuition reimbursement, flexible spending accounts, a generous Paid Time Off package, and a matching 401(k) plan. Relocation assistance will not be offered for this position.
